

Structural Glazing Tapes

VIRTUALLY INVINCIBLE

When you've got a lot riding on the structural integrity of your building, you need a heavy density glazing tape from Capital Tape.

Take the patented new VK Series Glazing Tape, for instance. It's very tough, very dense and virtually invincible, and your perfect choice for:

- Curtain wall structural silicone applications
- Any application that relies on costly high density urethane gasketing for spacing, vibration, dampening or cushioning
- Excellent adhesion to stainless steel, glass, aluminum, painted metal and vinyl

A FULL LINE OF STRUCTURAL GLAZING PRODUCTS

Capital Tape also offers a wide selection of tapes and foams for multiple construction purposes. Whether for hollow metal, structural or curtain wall glazing, our products are available in the thickness and width required for the specific job. Choose from:

- Medium to heavy density pvc foams
- Thermal barrier urethanes
- Light density pvc foams for weather-stripping and general gasketing applications

SPACER TAPES

Test Attribute	VK1826	VK2526	V2200	V2100
Density #/cubic ft.	20	25	22	31
Hardness ASTM D2240	25	40	30	35
Tensile Strength ASTM D412	84 psi	175 psi	130 psi	180 psi
Elongation ASTM D412	62%	70%	105%	125%
Dynamic Shear	60 psi GTP*	55 psi GTP	30 psi NTP#31*	40 psi NTP#31
Dynamic Tensile	35 psi GTP	65 psi GTP	45 psi NTP#25	55 psi NTP#25
Thermal Conductivity ASTM C518	0.30	0.33	0.55	0.55

Gaska Tape VK1826 and VK2526 meet AAMA 800-88, Section 1.6 810.1-85 Expanded Cellular Glazing Tape, Type 1

All products listed above have been tested and are compatible with silicones manufactured by Dow Corning, General Electric and others.

The values stated in charts are averages and are not to be construed as a warranty. Products must be tested by the end user for suitability in their application.

* GTP is a Gaska Tape test method

* NTP is a St. Gobain test method
