

Two-Sided Foam Tapes for Decorative Trim, Grid Attachment and Cladding

TOUGH, AGGRESSIVE AND BUILT TO LAST

The demands of cladding and trim attachment require tape products to withstand years of abuse in all kinds of weather. Capital Tape's line of high performance mounting tapes are designed to tough it out. They'll survive severe outdoor conditions while bonding dissimilar decorative materials. It's their stronger foam cores, combined with aggressive acrylic adhesives that give these tapes their incredible bonding strength.

FEATURES

- Two sided foam available in black, white, gray, and clear.
- Foam thickness ranges from .020" to .060", standard and custom widths available.
- Plastic release liners.
- Acrylic adhesives designed for long performance and excellent resistance to heat, humidity, chemicals and UV exposure.

BENEFITS

- Pressure sensitive foams eliminate the need for mechanical fasteners in visible areas.
- Several colors - including water clear - to blend with substrates.
- Liner removes easily for efficient production.
- Permanent, weatherproof bond.

PRODUCT OVERVIEW

- WC4400 Series Water Clear Acrylics for highly visible applications where bond should appear seamless .020", .025", .030", .040" thickness
- CT4700 Series Ultra High Bond Acrylics available in white and gray. .045" thickness
- 9200 Series high density black polyethylene foam. (Highest value to performance ratio). .030" and .045" thickness, easy release liner
